HEATHER LOGAN

BIOGRAPHY

Heather Logan's early career as a computer scientist, spanning over two decades, reflects her deep-rooted fascination with structure and precision. Transitioning into the arts, Logan worked as an independent artist and Adjunct Lecturer in Printmaking at Rice University from 1990 to 2003. Since 2000, she has focused on beadweaving, combining her technical background with her artistic vision to create intricate, geometrically inspired works that invite close examination and celebrate light, texture, and unexpected details.

Working on a small scale, she finds inspiration in the meditative process of beadwork, describing her creations as tiny pixels of light. Logan's designs feature highly structured, geometric forms composed of thousands of Delica beads—approximately 300 beads per square inch—requiring countless hours of dedicated work.

In addition to intricate bead patterns, her pieces often incorporate unique materials such as antique buttons, Japanese shibori ribbons, feathers, seashells, lampwork beads, and sterling silver—with unexpected surprises woven throughout. Inspired by contemporary bead artists Julia Pretl and Mikki Ferrugiaro, Heather Logan celebrates the rich history of beadweaving, while pushing the boundaries on the art form.

EDUCATION

1993	M.S. in Visual Sciences, Thesis: A Critical Investigation of Computer Mediated Interactive Art, Texas A&M University, College Station, TX
1990	Certification in Fine & Decorative Arts, Christies International, London, England
1964	B.A. in Mathematics, University of Texas, Austin, TX

SOLO EXHIBITIONS

2025	*Beadwork Delights*, Hooks-Epstein Galleries, Houston, TX

GROUP EXHIBITIONS

2026	*Holiday Pop-up Shop*, Hooks-Epstein Galleries, Houston, TX (UPCOMING)
2025	*Holiday Pop-up Shop*, Hooks-Epstein Galleries, Houston, TX

PROFESSIONAL EXPERIENCE

2004-Current	Independent Artist, Beadweaving, Austin, TX
1990-2003	Independent Artist, Etchings, Houston, TX Adjunct Lecturer, Printmaking, Department of Art and Art History, Rice University, Houston, TX
1964-1985	Computer Scientist, CCISD and various places
